

THE *ULTRA TECH* SERIES

Patent Pending,
Integrated Hardware
Locking System

BEAUTIFULLY
DESIGNED
WITH YOU
IN MIND

Heartland Windows continues to pave the way into technology with the new Smart Sash window system. It is the only window with an integrated hardware locking system. This innovative locking system combines the lock, tilt, and clean on demand options into one flush lock. This window is also crafted with triple weatherstripping, to seal out air and water infiltration.

Heartland

WINDOWS

"THE STRENGTH OF THE HEARTLAND"

The performance and durability of our vinyl replacement windows is determined by the character of the vinyl itself. We follow the most demanding manufacturing standards to ensure the quality of every vinyl component we produce.

ULTRA TECH WINDOW SERIES

Available in double-hung and double-slider window styles.

CLEAN WITH EASE FROM THE INSIDE OUT

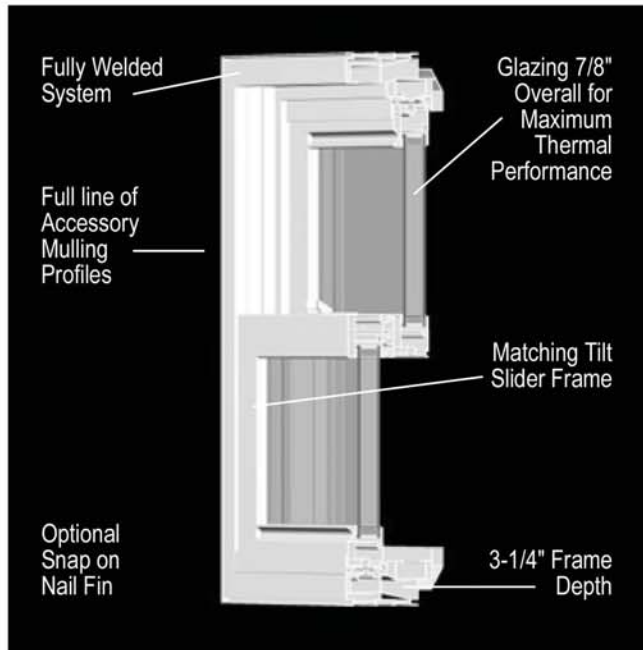

The innovative tilt on command feature on our double-hung and double-slider make cleaning from indoors a snap.

THE STRONGEST VINYL FRAMES

Fusion-welded corners and a multiple hollow chamber design build strength and structural integrity directly into every vinyl window we manufacture.

PUT AWAY THE PAINT FOR GOOD

Integral color throughout the vinyl creates a lasting finish that never needs painting. The vinyl in our windows will never chip, peel, or crack-guaranteed!

LOW E = HIGH PERFORMANCE

Summer Heat Out

Winter Heat In

Low E (low emissivity) coated glass is an important component of all our windows and doors. Low E specifies a microscopically thin, virtually invisible coating deposited on a glass surface. This coating limits radiant heat flow between window panes by reflecting heat into your home during cold weather, and back to the outdoors during warm weather.

ENERGY-EFFICIENT

Our multiple hollow chamber design produces a thermally efficient frame with superior resistance to heat transfer.

FEEL SAFE AND SECURE

Our dual positive-action cam locks ensure a weather-tight seal and added security.

INSTALLATION MADE EASY

Our windows are designed for easy installation. Each window is custom-made to your exact window openings, eliminating extensive renovating costs.

STAY PROTECTED FROM WIND AND WATER

Our triple-weather stripping provides maximum protection from wind and water penetration.
